LinkedIn: linkedin.com/in/santhoshsridhar15 | Email: santhoshsridhar1509@gmail.com

Professional Summary

Product Manager with 2 years of experience at Temenos, delivering scalable core banking solutions across lending, deposits, and accounts. Strong engineering foundation enabling effective collaboration with architects and developers. Experienced in requirement analysis, prioritization, and delivering stable releases in regulated fintech environments.

Core Skills

Product Discovery, PRDs & User Stories, Roadmaps & Prioritization, Stakeholder Management, Metrics & KPIs, Agile Delivery | Core Banking (Temenos T24), APIs, SQL, Python, Jira, Bitbucket

Experience – Temenos

• Collaborated with product owners and architects to translate client requirements into product enhancements
• Reduced recurring defects by ~30% through root cause analysis and quality improvements
• Supported global banks across multiple releases (R11–R25 AMR)
• Improved defect resolution speed by ~20% using Jira-driven workflows

Selected Case Studies

• AI-Assisted Loan Approval Platform – Reduced approval TAT and improved decision consistency
• Core Banking Account Lifecycle Optimization – Improved STP and reduced operational overhead

Certifications

Google Cloud Infrastructure Specialization | Temenos Certified Consultants Programme (TCCP) | Google Product Management Certification
